
YAYA DENTAL CENTRE

Teeth for Life

Mission Statement

To provide advanced dental care, with a primary focus on family, restorative and preventive dentistry.

Vision

To be the most reliable, humane and effective dental practice in Kenya.

Values

The provision of comprehensive oral health care to our esteemed clients is our number one priority.

Honesty and unquestionable integrity shall always be key pillars in our relationships with all our esteemed clients.

Our Motto

New smile new deal.

Personnel

A team of qualified registered and experienced dentists, consisting of:

- **Professor W. R. Lesan**- Consultant in restorative dentistry.
Former Dean University of Nairobi Dental School.
Lecturer department of Conservative and Prosthetic Dentistry.
Currently Senator of Bomet County. Specialist in fixed prosthetics.
He has supervised Masters students and written research papers published in various journals in the field of fixed prosthodontics.
- **Dr. E. K. Mutai**- General practitioner
General practitioner with a four year experience. With a bias towards oral surgery and endodontics. Working closely with specialists from other fields of dentistry to provide wholesome care all under one roof. Incorporating modern technology and teaching to guarantee the best care possible for all the dental patients.
- **Two dental assistants, and registered nurses.**
Trained in advanced trauma and life support. Regular update on cross infection control and proper waste disposal. Ensuring that beyond the clinic the public is also well taken care of and not exposed to unnecessary danger or environmental abuse. Also trained in record keeping and basic accounting and management of clinic inventory.

The highly experienced dental technicians and ceramist provide the dental lab work from Eurodent Dental Laboratory.
